TESTIMONIAL FOR TITAN INTERNET FROM CARL KEITH (WEWERERHODESIANS.COM)

As a military researcher, I needed a way to allow fellow researchers to 'tap' into my work. Whilst not business critical I did need a 'host' who would be reliable, professional and of real importance to me, the ability to understand and communicate with a novice, like me, to website hosting and the web.

My website developer highly recommended Titan Internet and I have not been disappointed at all. It has been like having my own personal physician on hand when I have experienced problems, self-induced or otherwise.

Prompt, professional, courteous, understanding are just some of the words that describe the service I have received from 'Team Titan' and I would strongly recommend Titan Internet to those looking for an alternative host.

I look forward to a long relationship with Titan Internet.

Regards

Carl Keith
