Dear David

We wanted to contact you to say a long required word of thanks for your service and support over the last few years.

We have used Titan Internet since 2002 when our web design business formed. We heard of Titan through word of mouth as being a thoroughly professional, reliable hosting company whom we could trust. It is testament to Titan Internet's complete professionalism that we use you exclusively eight years later. Everyone at Titan is always helpful, knowledgeable and quick to resolve any issue that may crop up. Our loyalty owes everything to the great experience we have had with you all at Titan.

The very few times that clients have insisted on using other hosting companies has made us appreciate you all even more. It is refreshing to know that excellent technical support direct to the experts can be reached immediately by picking up the phone – beats any control panel! You have also extremely helpful where it comes to speaking direct to our clients, who again have come to share the same loyalty to Titan Internet that we have. Many thanks Titan.

Best regards,
