Dear David,

123Live provide content managed websites for SMEs in the UK. We developed our own user friendly CMS software and needed a hosting partner that provided a fast, expert and personal service.

Having been let down by other "high profile" hosts we moved to Titan in 2003 and have never once regretted our decision. Our questions and requests are always responded to quickly by someone that really knows what they are talking about. When it comes to sales their advice is always spot on and they recommend solutions that are right for our business.

Titan provide a safe pair of hands for the hosting aspects of our business and I have no hesitation in recommending them.
